Andri Rahman Hakim

Full-stack Web Developer (Laravel & Vue.JS Expert)

PROFILE SUMMARY

I am a Full-stack Web Developer with expertise in PHP and JavaScript ecosystems. I have successfully completed a variety of web applications, ranging from comprehensive website development to smaller programming tasks. I collaborate effectively with team members to improve workflow efficiency and code quality. I continuously expand my technical skills to develop reliable web applications that deliver great results for clients.

WORK EXPERIENCES

PT. Capture Data Teknologi | Jakarta Selatan, Indonesia
Senior Web Developer, April 2021 – April 2025

- Led the development of multiple critical features for the Online Assessment Platform, significantly improving the test-taking experience for users
- Established development workflows and coding standards that improved team collaboration and code quality across multiple projects
- Architected and implemented database optimization strategies that notably improved platform responsiveness and stability
- Managed deployment pipelines and maintained server infrastructure
- Configured and maintained Linux servers for web application hosting
- Mentored junior developers in best practices for full-stack web development

PT Adhi Prima Potensia | Jakarta Selatan, Indonesia
with *"Human Care Consulting"* as company's brand
Web Developer, Sept 2020 - April 2021

- Engineered robust assessment modules that enhanced the platform's reliability and user experience
- Collaborated with psychology teams to implement complex scoring algorithms and automated result generation features
- Developed reusable components that accelerated future feature development

Freelance | Gombong - Kebumen, Indonesia
Web Developer, Jul 2014 – Sept 2020

- Actively involved in the development of websites for various clients, such as: DeTectSolution (Bandung), Jejo Digital (Singapore), BiruTekno Digital (Bandung), Imajiku (Yogyakarta), AksiKreasi (Jakarta), PlanAll (India), Staffr (India) and several personal projects.
- Responsible for project timeline management, task breakdown, and client delivery.
- Continually enhancing skills in web development, especially in PHP Laravel, VueJS, version control, server management including application deployment

PT. Neuronworks Indonesia | Bandung, Indonesia
Junior Programmer, 2008 - 2011

- I participated in the complete product development lifecycle of successfully launched applications.
- Collaborated with cross-functional teams to define, design, and implement new features.
- Worked on bug fixing and improving application performance.
- Wrote clean, maintainable, and efficient code in line with software development best practices.

Andri Rahman Hakim

Full-stack Web Developer (Laravel & Vue.JS Expert)

PROFESIONAL SKILL

Frontend Technologies
- HTML
- CSS, SCSS
- Styles / Theme:
  o Bootstrap, Bulma
- JavaScript:
  o JQuery,
  o VueJS: NuxtJS, Vuetifyjs, Buefy, VitePress
  o ReactJS: NextJS

Backend Technologies
- PHP:
  o Laravel
  o CodeIgniter
- Javascript:
  o NodeJS: ExpressJS, SqualizeJS

Databases
SQL, MySQL, PostgreSQL

Quality Assurance
- Manual Testing:
  o Test case development and execution
  o Regression testing
  o User acceptance testing (UAT)
  o Bug tracking and reporting
  o Functional and usability testing
- Automated Testing;
  o Unit testing
  o API endpoint testing

DevOps & Infrastructure
- Version Control & CI/CD:
  o Git, Github, Gitlab, Bitbucket
  o GitHub Actions
- Cloud Platforms:
  o Digital Ocean
  o Github Pages
  o Netlify
  o Vercel
- Server Management:
  o SSH
  o Linux Administration
- Deployment & Configuration:
  o Server setup
  o DNS management
- Containerization:
  o Docker

EDUCATION

Universitas Terbuka | Tangerang, Indonesia
Bachelor Of Information System, (In Progress, exp. 2027)

- Continue learning formal education in the field of Information System
- Focus on courses: System Analysis and Design, Advanced Database Management, and Enterprise System Integration
- Take this education while staying active as a professional to complete practical experiences with strong theoretical foundations

Politeknik Telkom | Bandung, Indonesia
Diploma Of Management Information System, 2010

- Graduate with a score of 3.15
- Specialized in Management Information Systems
- Project: "Library Book Borrowing System Management"

NIIT & Telkom Center | Bandung, Indonesia
Associate's Degree of Software Engineering, 2008

- Graduate with a score of 3.05
- Developing an application every semester
- Research and analysis about informatic systems every 3 months.
- Relevant coursework: Typography, App Development, Web Development, SDLC (Software Development Life Cycle)
- Basic Programming Language: C++, Java (J2EE, J2SE and J2ME), SQL, Linux Shell Script, C#, Flash script, HTML, CSS and Javascript.
